## Reflecting the Son 2021

**September 15, 2021**

### **Scripture for the Week**

2 Corinthians 5: 17-21

*Therefore, if anyone is in Christ, the new creation has come: The old has gone, the new is here! 18 All this is from God, who reconciled us to himself through Christ and gave us the ministry of reconciliation: 19 that God was reconciling the world to himself in Christ, not counting people's sins against them. And he has committed to us the message of reconciliation. 20 We are therefore Christ's ambassadors, as though God were making his appeal through us. We implore you on Christ's behalf: Be reconciled to God. 21 God made him who had no sin to be sin for us, so that in him we might become the righteousness of God.*

### **Prayer:**

*Lord, I ask that You pour out an opportunity for us to be restored, reconciled and to restore and reconcile others so that we in the Body may build strong relationship together. Lord, I know that so often we make foolish mistakes, and each one of us must accept and assume responsibility for the outcome, but I pray that by Your grace that You would restore again with Your joy and fellowship. Lord I/we truly humble ourselves and repent before You! Change Me Lord! Make me more like You Lord Jesus! Not only in my actions but in my attitudes and emotions. May Your will be done in every area of our lives.*

*Lord, please be gracious to me, bless me, make the light of Your face shine on me and draw me back into Your loving arms. Lord, I/we have wandered far from You, and have been chasing after the things that are not nearly as important as You. In so doing I/we have left my First Love. Lord Jesus, I want to return into Your loving arms. I am coming to You Lord now, to confess my neglect, to admit my fault in wandering from You, or those who I was in relationship and fellowship with, either because of the pandemic situation, or in order to experience a few paltry pleasures of the world. I long to rest in Your love once again, in Your will again, in your well done again and to breathe in the refreshing air of Your abundant grace. So, Lord please be gracious to me, and may the light of Your face shine on me once more. In Your grace, I come to You in humbleness of heart and pray that I/we may return into the sweet fellowship we once enjoyed. I pray this not just for me but for all who might find themselves in these places with You and with others they were once in relationship with. Thank You, Lord, that you are a God Whose greatest desire is to reconcile men and women back to Your loving arms and back to one another. I glorify Your wonderful name, and I pray this prayer by faith and by faith I count it done, In Jesus' name, Amen.*

## Service Information

*Therefore, do not lose heart. Even though our outward man is perishing, yet the inward man is being renewed day by day. 2 Corinthians 4:16*

### **Masks Required During Service**

We are currently following the guidelines from the State and the CDC.

The rise of the Delta and Moo Variant, we are once again requiring that masks for entrance to our building and services.

#### THE DELTA VARIANT – IMPORTANT INFORMATION

- The Delta variant of the coronavirus is more contagious than anything we've seen during the pandemic so far.
- Whether you are vaccinated or not, it's time to mask up and take other preventive steps if you wish to ensure the safety of yourself and your loved ones and the people in your community.
- The CDC says this strain of the coronavirus is more infectious than the common cold, the flu, Ebola, and smallpox.
- You can still get the Covid vaccine.

**Text your ZIP code to 438829 or call 1-800-232-0233 to find vaccine locations near you in the United States.**

#### USE LAYERS OF PROTECTION – AGAINST THE DELTA VARIANT

##### What can I do to protect myself and my loved ones?

- Layers. Upon layers. Upon layers:
- Mask up.
- Get vaccinated.
- Avoid crowds.
- Limit the amount of time you spend around other people — 10 minutes at the grocery store is less risky than 20 minutes, other things being equal.
- Open windows and otherwise improve ventilation.
- Upgrade AC filters to HEPA quality or virus-trapping ratings.
- No single protective layer is 100% effective, but combining them affords the highest level of safety.
